BOOK SYNOPSIS

The publication of FRAGMENTS OF A POETICS OF FIRE is a milestone in Bachelard studies that will influence the way we think about his themes & method for a long time to come. Dissatisfied with his earlier attempt to come to terms with the element of fire in "The Psychoanalysis of Fire" (1937), Bachelard returned to this theme in the book he was working on at the time of his death in 1962. Because of delays in &, eventually, the abandonment of a projected edition of his complete works, these FRAGMENTS OF A POETICS OF FIRE remained unpublished & their very existence unknown to all but a handful of Bachelard's readers. The author's daughter, Suzanne Bachelard, edited them for separate publication over a quarter-century later in 1988. For the first time we have an insight into the way Bachelard constructed his remarkable books. Miss Bachelard's introduction & extensive notes are an indispensable guide to the workings of his mind as "he shapes a meandering series of observations on the phoenix, Prometheus, & Empedocles into a coherent & engaging structure that respects the fluidity & openness of a living image - the powerful image of fire."
