BOOK SYNOPSIS

In order to be compliant with The Joint Commissions requirements of establishing and tracking practitioner competency using measurable data, MSOs must apply and adopt a standard framework defining the dimensions of privileged practitioners performance. But just like all healthcare regulations, the focused professional practice evaluation (FPPE) of providers is a process that is constantly changing and being refined. With an evolving provider landscape and commensurate legal findings, knowing how to collect, organize, and document FPPE data is critical for all facilities. Failing to gather and organize sufficient FPPE data in a standardized way presents risks including redundancy, inconsistency across specialties, and inadequate articulations for practitioners regarding their role in FPPE. The second edition of *The FPPE Toolbox: Field-Tested Documents for Credentialing, Competency, and Compliance* provides an up-to-date, comprehensive resource with the forms and tools MSOs need to conduct and manage FPPE. This book provides compliant and customizable forms, policies, letters, scorecards, and reports that can be utilized in facilities of all types and sizes. Author Juli Maxworthy, DNP, MSN, MBA, RN, CNL, CPHQ, CPPS, CHSE, shares her expert knowledge so MSPs can create a cohesive competency documentation process at their organization. This toolbox offers sample tools you can adapt for use in your own facility without making you wade through lengthy background information, including: Case studies describing how your peers implemented FPPE FPPE policy documents FPPE language excerpted from peers bylaws documents or policies and procedures Department-specific proctoring forms Inpatient and outpatient proctoring forms FPPE documents for HFAP-accredited facilities Forms that work for initial appointment and for-cause FPPE, and documents that illustrate the OPPE-FPPE connection Notification to a practitioner-successful conclusion of provisional
